

Important Reminders

Please remember that reading records must be in school every day.

Also year 6 SATs are the week beginning 13th May.

Year 5 and 6 Newsletter

Spring 2 2024

A message from the teachers

Welcome back! It is great to be back at school and we hope the children had a refreshing week off, ready for some more fantastic learning.

This half term we are focusing on the school value of learning. With this in mind the children have started their new half term by looking at what type of learner they are; visual, auditorial or kinaesthetic.

It was great to see so many children enjoy their treat last half term and let's set ourselves a challenge of nobody missing out on anything this half term! We will be organising an Easter egg hunt for those children who do not get any reflection forms.

Homework

A reminder that homework is set every Friday both on the dojo, school website and every child is provided with a paper copy (unless they 'accidentally' leave it behind!). We have tweaked the homework in 5/6 this year to provide opportunities to revisit and revise different areas of the curriculum, we then use the homework we get back to help influence future lessons and aspects we may need to spend a little or a lot more time on.

Home experiences

Remember to keep checking the school website and class dojo for your suggested home experience! We love seeing anything and everything you get up to at home. This doesn't have to be our suggestion given, this could be anything exciting that you get up to at home. Please share photos for us to share in class.

Useful Links and Websites!

Purple Mash— on this website the children will be able to take part in a range of games, activities and coding sessions -

Class Dojo—If you require a login to our class dojo please pop and see us! - <http://>

Our Learning This Half Term

Throughout this half term, the children will be continuing to learn about Earth and Space in science including learning about the solar system, how the moon affects the Earth and much, much more!

In computing, we will be exploring E-safety this half term, looking at real life scenarios which the children may come across and linking this to the 4 C's of E-safety.

In Geography, we have started with a fantastic local walk where we linked our exploration to our new topic, climate change. The children had some fantastic, deep discussions around the impact of climate change and what could be done in the local area.
